

CV of Failures

Javier Gonzalez — Updated as of 2026-08-05

“Most of what I try fails, but these failures are often invisible, while the successes are visible.”

An interviewee on the Freakonomics podcast stated that people often see the tech stars at their top of their careers. However, people fail to understand that they needed to take innumerable small steps to get to the top. Among those small steps, there are several step backs, mistakes, and failures. This CV of Failures is an attempt to provide some perspective on my journey.

I copied this idea, and the quote, from Johannes Haushofer who wrote his CV of failures inspired by Melanie I. Stefan's article.

Academic positions I did not get

**only including positions that I was shortlisted*

- | | |
|------|---|
